Approval of Minutes

A motion was made to approve the minutes from the July 20th meeting by Mr. Keitt, seconded by Mr. Hill.

Richard Hall proposed updated ordinances to the solar panel installations.

Citizens Comments

Several citizens had many concerns about the buffer around the solar panels. They wanted to make sure the height would be enough to hide the panels. The safety, durability and the looks for the fencing was another concern that was mentioned. The last major concern was the insurance that would cover the property being occupied with the solar panels and the adjacent properties. The term "Pollution legal liability" was mentioned in the comments.
