\$10.00 ea.

DIGITAL MAP PRODUCTS

Scanned Tax Map Parcel Images: These files are tiff image files that were captured from scans of the county mylar parcel maps in June of 2007. Scales are indicated on the image and are either 1" = 400' or 1" = 100' when viewed at the original size of the mylar E-size documents. Data captured is not orthographically corrected. Changes made since the time of the scan are not reflected in this data set. They do not contain any aerial backgrounds. Available on 1 CD which includes all of the parcel maps for the county. Also available as scans from October 2009 in PDF format.
\$100.00 each + \$3.00 shipping and handling.

Digital Aerial Mosaic: This file is available in Mr. Sid compressed tiff image format. The images were captured from aerial photography in 2004. Images are true color. Images were flown to 1" = 400' specs or 1" to 200' specs. Data was captured in State Plane NAD-83 and orthographically corrected. Some data may be from surrounding counties data sets. No property boundaries are included. To view this file you must have a SID reader or software capable of using SID compressed images. Available on 1 DVD.
\$100.00 each + \$3.00 for shipping and handling.

Digital Parcel Lines: Available as entire county coverage in GeoDatabase format for \$300.00

Data extracts and custom projects must be individually priced!

Minimum shipping & handling for 1 map \$1.50
